REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The reasons for allowance of claim 16 and 22-25 are included in the previous action. As to claims 4, 8-15, 17-21, the prior art discloses a similar process in Katsuro et al. (US Patent 6,129,899), which discloses a two step heating process for forming a quartz powder. However, the reference does not disclose the CO generating properties of the product. Moreover, the examiner cannot maintain his burden of establishing that the product of Katsuro et al. would necessarily result in the claimed property. In particular, heating in air (which contains small amounts of H₂ and He) will not necessarily result in the claimed CO liberating properties as shown in Comparative Example 1 of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Sample whose telephone number is (571)272-1376. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on (572)272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
